

ALCHEM 03061

Soaking Agent | Biodegradable

Chemical Composition

Alchem 03061 helps with incomplete hair roots removal in the liming process.

Alchem 03061 has excellent dispersing power of dirt on wet salted hides in presoaking and main soaking bath.

Alchem 03061 does not contain additional bactericide to inhibit bacteria growth. Therefore it is recommended to add additional bactericide to prevent bacteria attack in case of long soaking time.

Alchem 03061 is an environmentally friendly product, based largely on biodegradable raw materials.

Alchem 03061 is sensitive to concentration of salt higher than 3-4 Bohme.

Alchem 03061 should be diluted 1:10 with cold water before adding.

Application

A. Presoaking 0.3-0.8% based on wet salted weight for hides + 0.02-0.04% **bactericide**, 0.4-0.9% based salted weight for small skins + 0.02-0.04% **bactericide**.

B. Main Soaking 0.6-0.8% based on wet salted weight for hides + 0.02-0.04% **bactericide**, 1.0-1.2% based salted weight for small skins + 0.02-0.04% **bactericide**.

Properties

Appearance: Yellow Liquid

Analysis: pH 6.0-8.0

Active Ingredient: 34-38%

Ionic Charge: Anionic

Density: 1.00-1.05 KG/L

Storage Condition: Optimum Condition is between +5°C and +30°C.

Keep away from below freezing temperature.

Stir thoroughly before use.

Shelf Life: Up to 24 months in the original packing condition.

Packing

1,000KGS IBC, 120KGS Plastic Drums
