

ALCHEM DW

Auxiliary for Dried Wetblue

Chemical Composition

Alchem DW is a special auxiliary designed to restore dried wetblue to a suitable condition where subsequent chemicals can penetrate.

Alchem DW slowly penetrates and cleans the wetblue surface and inner substances by reacting with the residual chemicals attached to the natural fibers. It is advisable to run **Alchem DW** and dried wetblue on automatic and periodically check the wetblue's condition. In extreme cases, double the normal dosage is recommended.

Alchem DW can be added directly into the float without dilution.

Alchem DW will gel under low temperature condition and should be warmed up before addition.

Application

- A. Dried grain and split wetblue: wetting bath up to 2% **Alchem DW** based on shave weight. In extreme cases, double the normal dosage is recommended.

Properties

Appearance: Clear Liquid

Analysis: pH 4.0-6.0

Ionic Charge: Nonionic

Stability: Stable in usual concentrations of salts, alkalis and acids

Storage Condition: Optimum Condition is between +5C and +30C.

Keep in cool and well ventilated warehouse.

Shelf Life: Up to 12 months in the original packing condition.

Packing

120KGS Plastic Drums
