

ALTAN MR

Tanning Auxiliaries | Chrome Complexing Agent

Chemical Composition

Altan MR is a carboxylic based retanning agent.

Altan MR has very good filling effect on the loose area of the leather.

Altan MR is suitable for chrome tanned leather, without rechroming process due to the environmental concerns.

Altan MR improves the fullness and roundness of leather without losing chrome leather properties.

Altan MR produces tight and soft leather.

Altan MR does not stiffen the leather.

Altan MR will plump the leather while maintaining grain smoothness.

Application

A. Neutralizing bath: 2-4% **Altan MR**. **Altan MR** will improve fullness and tightness when used in the neutralizing bath.

B. Retanning bath: 2-4% **Altan MR**. **Altan MR** will improve roundness and fine pebble break effect. Breaking the dosage helps with even distribution of **Altan MR**.

Properties

Appearance:	Clear Liquid
Analysis:	pH 11.0-13.5
Active Ingredient:	38-42%
Density:	1.25-1.30 KG/L
Stability:	Neutralizing and Retanning Bath
Storage Condition:	Optimum Condition is between +5°C and +30°C. If frozen, defrost and stir thoroughly before use. Keep in cool and well ventilated warehouse.
Shelf Life:	Up to 18 months in the original packing condition.

Packing

150KGS Plastic Drums
