LEATHERNOL BNM

Sulfated Fatliquor

Chemical Composition

Leathernol BNM is a sulfated fatliquor suitable for all types of soft leather.

Leathernol BNM produces pure white color crusts.

Leathernol BNM has a strong binding power to the leather fiber that only a minimum amount of product can be extracted from the resultant leather.

For best results, **Leathernol BNM** should be warmed up to 25-35C before emulsified with 40-50C water.

Application

A. Lining leather: 6-8% Leathernol BNM.B. Glove leather: 12-14% Leathernol BNM.

Properties

Appearance: Brown Liquid Analysis: pH 6.8-7.8 Active Ingredient: 60-61% Ionic Charge: Anionic
