

YOLKANOL GL

Compound Fatliquor

Chemical Composition

Yolkanol GL is a compound fatliquor based on natural oils, phospholipids and synthetic softeners, suitable for all types of soft leather.

Yolkanol GL has medium penetration and imparts dry and silky touch.

Yolkanol GL produces soft and light weight leather.

Yolkanol GL is suitable for brilliant color to dark color leather with even dyeing.

Yolkanol GL is able to exhaust even with very high dosage and will not deposit on the grain causing sticky and dark grain.

Yolkanol GL has excellent lightfastness and imparts neutral odor to the resultant leather.

For best results, **Yolkanol GL** should be warmed up to 25-35C before emulsified with 40-50C water.

Application

A. Small skins garment: up to 16% **Yolkanol GL**.

B. Buffalo upholstery: up to 14% **Yolkanol GL**.

C. Cow upholstery: up to 12% **Yolkanol GL**.

D. Shoe upper: softy box calf: up to 5% **Yolkanol GL**.

Properties

Appearance: Yellow Paste

Analysis: pH 6.5-8.0

Ionic Charge: Anionic

Stability: Compatible to most anionic chemicals used in neutralization, retanning and main fatliquor bath. Not stable to chrome and aluminum salts.

Storage Condition: Optimum Condition is between +5C and +30C. If frozen, defrost and stir thoroughly before use. Keep in cool and well ventilated warehouse.

Shelf Life: Up to 12 months in the original packing condition.

Packing

120KGS Plastic Drums
